

EUROPOWER SERIES

Line Interactive 1000VA UPS

Europower series Line Interactive UPS is integrated with AC voltage stabilizer, surge voltage suppression, with its compact size, full function, high efficiency, high reliability, easy to use suitable for office spaces and homes. Line interactive UPS is always in by-pass mode while the mains is on and during power outage it provides electricity for the connected device. They are commonly used for computers in home or offices. Operating time of the line interactive UPS cannot be increased by adding extra batteries. For long-time operations an online UPS must be used.
