

Magnetic Door Sensor

Secnor NAC- 1601DS Magnetic door sensor suits for shutter door and is made of ABS material.

Application

Office areas, schools, communities, office buildings, hotels, shopping malls, shops, public service places, etc.

Technical Parameters

Model No.	NAC-1601DS
Dimension	106×38×10(mm)
Code mode	Default :NO (Normaly Open) NC (Normaly Close, Optional)
Gap	60±10(mm)
Max voltage	≤100V DC
Max current	≤500mA
Max rating	≤10W
Color	Grey
Suit for	Shutter door
Material	ABS Plastic, Zinc Alloy Metal
Net weight	0.15 Kg

ORDERING INFORMATION

Part Number	Description
NAC-1601DS	Magnetic door Sensor
