

24 Fibre Nexpatch Splice Tray

The fiber optic splices cassettes are designed to protect and house fiber optic splices. Splice cassettes can also be used to store fiber pigtail and to provide protection to it. Applications can be for patch panels, wall boxes and fiber management for internal or external use.

COMPLIANCE

TIA/EIA 568.C
 ISO/IEC 11801
 EN50173
 IEC60304
 IEC61754
 Material Flammability: Comply with UL 94V2

FEATURES

- A standard size and lightweight
- One Cassette can support up to 24 Splices in 2 layers or 12 Splices in 1 layer
- Each Cassette can store and protect 24 buffered fibers with a diameter of up to 900µ.
- Allows storage of either 250µm and 900µm buffered fibers
- Allows easy storage of excess fiber and multi-directional routing of entry and exit fibers
- Stackable Cassettes can swing up to allow access to fiber in lower cassettes
- Provide a means for storing the fiber "over length" required for jointing and for re-splicing in the future
- Cable tie points for fixing fibers on entry and exit

TECHNICAL SPECIFICATIONS

Material	ABS, Gray
Relative Humidity	≤85% @ 30 °C
Operating Temperature	-40 °C-60 °C
Bending radius	≥30mm
Dimension	140x95x7.6mm
Weight	35gr (without splice protection sleeves)

24 Fibre Nexpatch Splice Tray

KIT INCLUDES

- Fiber splice cassette x1
- Transparent cover x1
- Splice protective sleeves O.D: Ø3.0mm,l=60mm x24
- M3x10 screws & nuts x2
- Cassette Hinges x2
- Cable tie x4
- PVC Tube
- Double Sided Adhesive Foam x2
- Installation Instructions
