

IP68 Waterproof RFID Access Reader

Secnor NAC-8001AR IP68 waterproof RFID access reader has EM/Mifare card type. It is made of plastic shell and has a very low power consumption. The fast search speed for the reader is less than 0.1s.

Application

Office areas, schools, communities, office buildings, hotels, shopping malls, shops, public service places, etc.

Features

- Plastic shell, anti-vandal
- Very low power consumption, standby current less than 30mA
- WG 26 output
- Fast Search speed : time between reading card and opening the door is less than 0.1S

Technical Parameters

Operating Voltage	9-12V DC
Card type	EM/Mifare
Reading Distance	3-6 cm
Quiescent Current	≤30mA
Operating Temperature	-45°C ~ 60°C
Operating Humidity	10%- 90% RH
Waterproof	Conforms to IP68
Dimension	110x48x20 mm

ORDERING INFORMATION

Part Number	Description
NAC-8001AR	IP68 Waterproof RFID Access Reader
NAC-8001ARMF	IP68 Waterproof RFID Access Reader (Mifare)
