

# POLE TYPE TEMPERATURE DETECTION SENSOR

ENC-PTM000W

## FEATURES

3.5 inch LCD touch screen

±0.5°C measurement accuracy

Wrist temperature measurement

Non-contact detection to avoid cross infection

Triggering voice alarm for abnormal temperature detection

Alarm temperature can be set manually, voice alarm will be triggered when detecting abnormal temperature

## SPECIFICATION

| MODEL         | Model No.             | ENC-PTM000W  |
|---------------|-----------------------|--|
|               | Type                  | Pole type Temperature Detection sensor   |
| SPECIFICATION | Display content       | Environment temperature, Number of passing people, Human body temperature, Number of alarms, Temperature alarm |
|               | Screen                | 3.5 inch LCD touch screen  |
|               | Measurement range     | 20°C~40°C  |
|               | Temperature deviation | ±0.5°C   |
|               | Measurement distance  | 2-4cm  |
|               | Power supply          | 100-240VAC 50/60Hz   |
|               | Operating temp.       | 0°C~37°C   |
|               | Operating humidity    | ≤85% RH  |
|               | Weight                | 10.5Kg   |
|               | Dimension             | 200x300x1700   |

## ORDERING INFORMATION

| Part Number | Description  | Standard Quantity |
|-------------|--|-------------------|
| ENC-PTM000W | Eyenor Pole type Temperature Detection sensor with LCD Touch Screen Display. | 1                 |

## PACKING INFORMATION

| Part Number | Packing Mode | Gross Weight (kg) | Dimension (mm) |
|-------------|--------------|-------------------|----------------|
| ENC-PTM000W | Carton Box   | 10.5              | 200x300x1700   |
