

## 4.5" Ceiling Speaker 6W

### DESCRIPTION

The NVS-10240006CS is a ceiling speaker with built-in 70V/100V transformer. The transmission takes place in a high-voltage, high-current environment. Low-current mode allows for longer transmission distances and parallel connections of many loudspeakers. It's composed of high-quality ABS plastic that will never go out of shape or fade, and it last a very long time. The installation is simple and secure because of the spring clip clamp. Excellent damping, long life, and driver surround.
