

Horn Loudspeaker 15W

DESCRIPTION

The NVS-11100015HS is a waterproof Horn Speaker with built-in 70V/100V transformer. The transmission is accomplished in a high-voltage, low-current mode, allowing for longer distance transmission and parallel connection of multiple loudspeakers. It is made up of high-quality aluminium, so it will last a very long time and never go out of shape. It can be used in a variety of occasions, vary from size and background noise, such as a station, park, school, square, military camp, industrial park, and so on.

FEATURES

- Clear and sonorous sound
- IPX6 waterproof level
- Suitable for outdoor use
- Driver surround excellent damping
- Equipped with brackets for installation
- Made up of high quality aluminium
- Built-in 70V/100V transformer
