

Wall mount Waterproof Speaker 20W

DESCRIPTION

The NVS-11280020WS is a Wall Mount waterproof speaker with built-in 70V/100V transformer and 8Ω power tap, you can select different power for different occasion. Three alternative installation types for each speaker: Wall-mounted with bracket, you can install on the wall; Floor-stand with stake, you can install in your backyard; Pendant type with safety rope, you can hang the speaker in your room. The speaker combines attractive design with excellent sound. With the high-class woofer it provides consumers with exceptional sound quality. It can be used both indoors and outdoors due to high temperature resistance and IP66 weatherproofing. With the help of the special brackets, it is simple to install the speaker at a variety of angles in corners or on solid surfaces like walls or ceilings. It is an ideal choice for garden, parks, hotels and other outdoor activities.
