FIBRE CONNECTOR

MTRJ CONNECTOR

Norden MTRJ connector is capable of terminating any 125µm fibre, designed to terminate two fibres within a single connector, reduces the risk of operator error when inter-connecting equipment and distribution panels. The MT ferrule in its various designs has the ability to connect anything from 2 fibres in the MTRJ to 72 fibres in the latest versions of

The flexibility of the connector allows it to be used in short run local area networks as well as longer haul cabling using single mode fibre.

COMPLIANCE

Compliant with IEC 61754-18 for Intermateability

APPLICATIONS

Telecoms, intra-building backbone LAN cross connects. (Duplex multimode connections)
