Supports people counting statistics in list or graphics
Add device via P2P
Live view with audio and remote playback through P2P
Switch P2P server region

SPECIFICATION

MODEL			
	Model No.	**ENS-EYECONNECT**	
	Type	Eyenor Video Management Software	
	Supported Devices	IPC, NVR, XVR, PTZ etc.	
	Max Connected	200 IP devices or 512 channels	
	Device Management	Add/delete/edit user and configure user authority, Set period of validity	
EYECONNECT SMART CLIENT EXPRESS	System Framework	Common functions and basic functions	
		Drag to add new function icon or remove it	
		Drag to change function icon order	
	Login	Create password when first start the software	
		Support forgot password by protection questions	
		Auto login, remember password	
		Support switching languages in login interface	
	Device Management	Auto search devices within same LAN, supports batch and one-key addition	
		Support manual addition by IP, DDNS, EasyDDNS, P2P (Only for Windows version)	
		Support group management	
		Support acquiring device channel name or sync channel name to devices	
		Support jumping to device IE interfaces in default browser	
		Support export and import of device and group organization list	
	Preview	Support device list and device online status	
		Support one-key to connect/disconnect all channels	
		Support 1/2/3/4/1-5/1-7/9/10/13/16/17/25/36/49/64 window division mode and customization of display split	
		Support to enable/disable audio and two-way audio	
		Support capture and one-key to capture all channels	
		Support to switch main and sub stream, set video parameters	
		Support record and one-key to record all channels	
		Support PTZ control, focus, aperture, preset, light/wiper control	
		Support saving view, view rotating and group switch	
		Support face capture and display body temperature info during preview	
		Support face recognition and display comparison result	
	Playback	Support device list and device online status	
		Playback control, play/pause/fast forward/slow forward/step forward	
		Support 1/2/3/4 window division mode	
		Support capture and one-key to capture all channels	
		Support to enable/disable audio	
		Search video by calendar, date, storage location, stream type, etc.	
		Download video clip by file or by time	
	Operation Logs	Query operation logs by time, type, user, etc.	
		Export log information	

EYENOR VIDEO MANAGEMENT SOFTWARE

ENS-EYECONNECT (For windows)

SPECIFICATION

MODEL	**Model No.**	**ENS-EYECONNECT**
	Type	Eyenor Video Management Software
SMART CLIENT EXPRESS	Intelligent Search	Retrieve face pictures by time, gender, age, mask, glasses, body temperature
		Result can be displayed in list or figure
		Check detailed picture or video
		Export data
