

Landscape Garden Speaker 60W

DESCRIPTION

The NVS-11020060GS is a landscape Garden Speaker with built-in 70V/100V transformer. The transformer technique decreases line losses over longer distances and allows multiple loudspeakers to be connected in parallel. The high-class resin enclosure is weatherproof and has a stump shape. It has a heavy damage proof finish. It is an excellent solution for outdoor industrial and commercial applications such as train stations, shopping malls, parking lots, and factories that require background music and paging.
