

8 Zone Multi room Smart Home Amplifier

DESCRIPTION

The NVS-90280548MA is a multi-room smart home amplifier that comes with all the traditional home audio features as well as the ability for different rooms to listen to different music programs. For instance, if older and younger people prefer different types of music, older people can play traditional opera in their room while younger people can play pop music simultaneously in another room. With the use of the timer function, you may schedule specific programs to run at predetermined times, such as setting an alarm for o'clock to remind you to get up on time.

FEATURES

- ⊙ Support multiple room music sharing, built in 8 zones
- ⊙ Support music in format: MP3,WMA,APE,FLAC,WAV and so on
- ⊙ 1 DVD audio input socket, 2 AUX input socket
- ⊙ Timer function
- ⊙ IR learning function
- ⊙ Support Network radio
- ⊙ RS-232 port to integrate with Smart home system.

Specifications

Model	NVS-90280548MA
Output Power	Zone 1: 2x60W, Zone 2-8: 2x30W (8Ω)
Frequency response	20Hz-20kHz (±0.5dB)
Input Sensitivity	520mV (±50mV)
Total Harmonic Distortion	<0.3% (f=1kHz, 1/3 Rated output power)
Input Impedance	>10kΩ
Signal to Noise Ration	>81dB
Power Supply	AC220-240V/50-60Hz
Weight	14.6kg
Dimension	430×345×132mm
