

Outdoor Aluminium Horn Speaker

DESCRIPTION

The NVS-L1011030HS is a weatherproof horn speaker with integrated 100V matching transformer. The speaker has a highly stylish and appealing design despite its stability. This Weatherproof Horn speaker, which has an ABS plastic shell with UV resistance, is almost identical to the outdoor speakers used for community systems and PA systems. The matching transformer is fitted in the back side cover, which is made of impact and scratch-resistant plastic. The mounting is enameled steel, and the horn is constructed of ABS. The mounting bracket is completely tiltable and very simple to install.

FEATURES
