

# 15W Garden Speaker with Lamp

## DESCRIPTION

The NVS-11060015GS is a landscape Garden Speaker with built-in 70V/100V transformer. The transformer technique decreases line losses over longer distances and allows multiple loudspeakers to be connected in parallel. It has an IPX6 waterproof rating, which implies it can be directly exposed to harsh outdoor conditions. Cold, snow, ice, extreme temperatures, and sunlight are all resistant to the high-class resin material. It is an excellent choice for industrial and commercial applications in the outdoor area such as train stations, shopping malls, parking lots, and factories where background music and paging are required.
